## Using Google Analytics

This website uses Google Analytics, a web analytics service provided by Google Inc. (following:

Google). Google Analytics uses so-called "cookies", ie text files that are stored on your computer and that allow an analysis of the use of the website by you. The information generated by the cookie about your use of this website is usually transmitted to a Google server in the USA and stored there. However, due to the activation of IP anonymization on these websites, your IP address will be shortened beforehand by Google within member states of the European Union or in other contracting states of the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be sent to a Google server in the US and shortened there. On behalf of the operator of this website, Google will use this information to evaluate your use of the website, to compile reports on website activity and to provide other services related to website activity and internet usage to the website operator. The IP address provided by Google Analytics as part of Google Analytics will not be merged with other Google data.

The purposes of data processing are the evaluation of the use of the website and the compilation of reports on activities on the website. Based on the use of the website and the Internet, other related services will be provided. The processing is based on the legitimate interest of the website operator. You can prevent the storage of cookies by setting your browser software accordingly; however, please note that if you do this, you may not be able to use all the features of this website to the fullest extent possible. In addition, you may prevent the collection by Google of the data generated by the cookie and related to your use of the website (including your IP address) as well as the processing of this data by Google by downloading the browser plug-in available under the following link and install: [Google Analytics Disable Browser Add On](#).

Additionally or as an alternative to the browser add-on, you can prevent Google Analytics tracking on our pages by setting [click this link](#). An opt-out cookie will be installed on your device. This will prevent the collection by Google Analytics for this website and for this browser in the future, as long as the cookie remains installed in your browser.

## Using Script Libraries (Google Webfonts)

In order to present our content in a correct and graphically appealing way, we use script libraries and font libraries on this website. For example, Google Webfonts (<https://www.google.com/webfonts/>). Google web fonts are transferred to the cache of your browser to prevent multiple loading. If the browser does not support Google Web fonts or prohibits access, content will be displayed in a standard font.

The call of script libraries or font libraries automatically triggers a connection to the operator of the library. It is theoretically possible - but currently also unclear whether and for what purposes - that operators of such libraries collect data.

The library operator's privacy policy can be found here: <https://www.google.com/policies/privacy/>

## Using Google Maps

This website uses Google Maps API to visually display geographic information. When using Google Maps, Google also collects, processes and uses data about the use of map features by visitors. For more information about Google's data processing, see [the Google Privacy Notice](#). There you can also change your personal privacy settings in the privacy center.

When you visit a page with the YouTube plug-in, it will connect to Youtube's servers. Youtube will be informed which pages you visit. If you are logged into your Youtube account, Youtube can assign your surfing behavior to you personally. This can be prevented by logging out of your Youtube account beforehand.

If a Youtube video is started, the provider uses cookies that collect information about user behavior. Anyone who has disabled the storage of cookies for the Google Ad program will not have to expect such cookies even when watching YouTube videos. Youtube also stores non-personal usage information in other cookies. If you want to prevent this, you must block the storage of cookies in the browser.
